

Please Read **DESPERATELY Need Your HELP!!!!**

The Nesconset Fire Department (NFD) will be hosting a bone marrow drive for Brian Wecker, son of Christopher and Rosemarie Hembury on Sunday, October 18, 2009 starting at 10:00 am.

Brian is a 15 year old boy who attends Smithtown High School East and loves to draw and do graphic designs on the computer. Brian was diagnosed with Leukemia this past August and desperately needs a bone marrow transplant if he is going to possibly beat this disease. Unfortunately, Brian has a rare form of bone marrow and so far, no one on the National Bone Marrow Registry is a match.

Please stop by the Nesconset Fire Department, located at 25 Gibbs Pond Road, on October 18th to see if your bone marrow is compatible. All it takes is 4 quick swabs of your mouth to determine a match.

Please call the NFD at 631-265-1428 or Chris or Roe at 631-361-6310 with any questions or additional information needed.
