This seminar will explain the process of getting Florida State Certified as a Law Enforcement Officer. This process will show you how easy it is and guide you through the 76 hour Equivalency of Training (EOT) course and state exam which most out of state officers do qualify for this process.

We will also discuss how to prepare for the hiring process no matter which law enforcement you choose. This will streamline your process and help your chances of being offered that law enforcement position you applied for.

I encourage retired law enforcement officers to consider Palm Beach County School District Police Dept. I will explain why.
